Policy: It is the policy of The Arc of Monroe to ensure that people have opportunities for privacy and that business, administrative and support functions promote personal and organizational outcomes.

Additional Information: Per HIPAA law, providers' Notice of Privacy Practices ("Notice") must be posted in a clear and prominent location where it is reasonable to expect individuals seeking service are able to read the notice. In addition, a copy of the Notice must be available for people supported to take with them. Notices are available in both English and Spanish.

For the purposes of this procedure, "posted" means that it is hung in its entirety so that the entire Notice can be seen without needing to turn or flip pages. This means hanging each page individually.
